

IT IS A DISGRACE THE WAY YOU TREAT HOWARD STERN AND THE MEDIA. it is not the government's job to dictate to the public, the government's job is "ONLY" to protect the citizens of this great country. you cannot invoke your private personal morals on me. it is ashame that you take this position of authority, which has public trust, and use it for your own campaign. the constitution is very clear on this issue, and i feel that your racketeering and bullying of the media is horrible. lastly, these decisions you are making will be the downfall of this country, especially when you do the will of the minority over the will of the majority.
